

SHINWON LEE

Email: chowono708@snu.ac.kr | <https://chowono708.github.io>

EDUCATION

Seoul National University (SNU) B.S. in Computer Science & Mathematics CS GPA: 3.93/4.0, Math GPA: 3.84/4.0	Mar 2022 – Present Seoul, Korea
Sejong Science Highschool Graduated early (completed full program in 2 years)	Mar 2020 – Feb 2022 Seoul, Korea

RESEARCH INTERESTS

My research interests lie in modern cryptography and privacy-enhancing technologies, with a focus on fully homomorphic encryption, zero-knowledge proofs, secure multi-party computation, and the fundamental principles that underpin cryptographic theory.

EXPERIENCES

SNU Crypto & Privacy Lab <i>Undergraduate Researcher</i> Advised by Prof. Yongsoo Song	Oct 2024 – Present Seoul, Korea
CryptoLab Inc. <i>Research Intern</i> - Internship focused on optimizing homomorphic encryption performance. - Contributed optimizations to HE library (HEaaN)	Jun 2024 – Aug 2024 Lyon, France
SNU Cryptography Lab <i>Undergraduate Researcher</i> - Research on efficient key-switching algorithms for homomorphic encryption - Advised by Prof. Jung Hee Cheon	Jan 2024 – Aug 2024 Seoul, Korea

PUBLICATIONS

Authors listed in alphabetical order by last name.

- Efficient Full Domain Functional Bootstrapping from Recursive LUT Decomposition**
Intak Hwang, Shinwon Lee, Seonhong Min, Yongsoo Song
SAC 2025
Honorable Mention — Korea National Cryptography Contest 2025 (\$1,500 prize)

PROJECTS

StoryBridge <i>Team Project</i> Building a multilingual picture-book app with translation and TTS features to aid multicultural children's learning.	Fall 2025 Seoul, Korea
Code Generation IDE using Fine-Tuned LLM <i>Team Project with INSWAVE SYSTEMS</i> Fine-tuned a language model for front-end code generation and integrated it into a custom IDE.	Fall 2024 Seoul, Korea

TALKS

Efficient Full Domain Functional Bootstrapping from Recursive LUT Decomposition SAC 2025, Toronto Metropolitan University, Canada	Aug 2025
--	----------

TEACHING

Seoul National University

Teaching Assistant, Computer Architecture (English lecture)

Fall 2025
Seoul, Korea

- Conducted TA sessions and evaluated student assignments for 169 students.

Seoul National University

Teaching Assistant, Logic Design

Fall 2024
Seoul, Korea

- Assisted lab sessions and evaluated student assignments for 112 students.

SKILLS & ADDITIONAL INFORMATION

Programming: C/C++, Python, Go, Java

Tools: Git, Linux, LaTeX, Pytorch

Languages: English (fluent), Korean (native)

Other: South Korean Citizen, U.S. Permanent Resident

RELEVANT COURSEWORK

Advanced Cryptography (graduate), Mathematical Algorithms (graduate), Introduction to Modern Cryptography, Introduction to Security, Privacy and Blockchain

– *All courses graded A+*
